Annual turnover is defined as all external billings for market and social research, data analytics and insights services^{^^} (less GST) provided by the organisation (or part of an organisation) in Australia.

Services are defined as: Research: which includes all forms of market, opinion and social research and data analytics is the systematic gathering (with consent) and interpretation of information about individuals and organisations. It uses the statistical and analytical methods and techniques of the applied social, behavioural and data sciences to generate insights and support decision-making by providers of goods and services, governments, non-profit organisations and the general public. Data analytics means the process of examining data sets to uncover hidden patterns, unknown correlations, trends, preferences and other useful information for research purposes.

[^]Includes [Trust Mark Directory](#) listing administration fee of \$250 + gst (Group companies are entitled to a 5% discount* which ADIA will deduct upon invoicing.)
