

Group buying discount

Enfonica is proud to partner with Australian Data and Insights Association (ADIA) to provide voice and SMS services to its members with a group buying discount.

About us

At Enfonica, we sincerely believe that good communication can make the world a better place. This is the driving force behind our core goal - to make every customer interaction great.

We are a cloud-native telephony provider. This allows us to focus our expertise on our core voice (SIP/PSTN) and SMS offering, and the advanced features we provide, and let Google Cloud focus on the hardware and connectivity that keeps us operating 24/7. Our team, having operated voice infrastructure in both the data centre and the cloud, has the highest conviction and confidence in the cloud, which is echoed by other leading contact centres and service providers in the industry.

Caller ID Reputation Management

You can automate testing by importing and scheduling your phone numbers in Enfonica's CLI Reputation Management tool. You will receive alerts every time a CLI is flagged by Hiya and can see what people are saying about your calls online. No integration required.

Pricing

CLI Testing	Retail Price	ADIA Member Price	You save
Cost per check	\$1	\$0.50	50%

Phone Numbers

You can purchase clean and healthy numbers from a growing inventory to make and receive calls. Provision Australian numbers instantly, including:
