ISO 20252:2026

Transition and Compliance Package

AI is changing how insights are produced I Trust is changing how insights are bought.
ISO 20252:2026 certification proves you excel at both.
Transition with confidence, using the proven training ADIA provides its own certified members.

Sept 2029	**12 months**	**5 logins**
Deadline to transition from the 2019 version	To implement the changes and build evidence for audit	Your whole quality team, one organisation price

Update your system. Don't rebuild it.

Most of the 2019 Standard is unchanged. This package shows you exactly where 2026 asks for more:

- **AI and automation:** policies and monitoring across all research practices
- **Data quality:** stronger sampling and panel management requirements, including new Annex G
- **Risk and security:** risk-based quality and security, aligned with ISO 27001 and ISO 42001

What you get

ISO 20252:2026 Transition Training *Five self-paced stages, about six months*	Global Release, Transition Plan, Framework (Clauses 4.1 to 4.7), Annexes A to G, and the 3-Year Certification Cycle. Plus ready-to-use tools: a Gap Analysis Template, a Technology Management Table for ICT and AI, and an example training plan.
Internal Auditor Training *Updated for 2026*	Covers ISO 20252 and ISO 27001, with a full suite of internal audit templates and a Certificate of Completion for every participant.
